SON TON.

PARIS IS GOOD TO MRS. COREY.

Steel King Returns from Europe Without Bride.

Former Actress Finds French Society Congenial.

Nobility Accepts Hospitality of Magnificent Chateau.

(BY DIRECT WIRE TO THE TIMES.) PARIS, July 17.—[Exclusive Dispatch.] The fact that Mrs. William E. Corey did not accompany her husband to America means nothing more or less than that the little woman, who is known to the stage as Mabelle Gilman, has found a new and pleasant social life at the French capital and an atmosphere from which her husband, notoriously heedful of her happiness, would be the last to take her.

It is stated that she will sail for America August 10, and that in the meantime she has planned a series of social pleasures that will bring to her side many of the best-known figures in the Parisian social set. In America, it is pointed out, her sphere was restricted both by the circle from which she came to the Corey millions, and by the terrible criticism, both from press and public, that followed the match.

The magnificient Chateau Chantilly has been turned into a veritable palace by the magic of the steel corporation's money, has nothing in its atmosphere to recall the strings and arrows of the social scandals immediately preceding and following the marriage, and the demands of business took Mr. Corey away sooner than he would have liked, and he did not desire that business excuse should cut short so pleasant a sojourn as he had planned to have here.

In peasant, it is said, that many of the representatives of the nobility of Europe who make Paris their Mecca, have fallen into the Corey court, either with the sprightly young women who preside over it, with that European homage for the slightly bank account that is so much in their particular circle.

It would not be surprising if the Coreys should much prefer the chateau. It is within easy reach of Paris and all that is Parisian—and besides, it is removed from the chorus. There was, when he was remembered, a reason why Mr. Corey had been retiring from business and residing here permanently. It is still heard at times.

W. E. COREY HOME.

(ASSOCIATED PRESS NIGHT REPORT.) NEW YORK, July 17.—W. E. Corey, president of the United States Steel Corporation, arrived here today from Europe. Mr. Corey said that by next week he would return to his post practically normal conditions in the business world. Asked about the formation of an international steel combination, Mr. Corey said he knew nothing about it.

CHEERED UP.

HUNDRED SAVED FROM SUICIDE.

ELVATION ARMY MAKES REPORT ON UNUSUAL WORK.

During Year in Which Established, Anti-Suicide Bureau in Chicago Has Given Advice to Four Hundred Despondent Men and Women—Officers Transferred.

(ASSOCIATED PRESS DAY REPORT.)

CHICAGO, July 17.—Five Salvation Army officers, among them Brigadier Alexander McMillan, founder and head of the famous "anti-suicide bureau," will leave Chicago this week to take commands in various parts of the United States. The order has been issued by Gen. William Booth as a preliminary to the coming of the newly-appointed commander of the western territories, Commissioner Thomas Russell of Japan.

During the time the anti-suicide bureau has been established, about a year, exactly 400 men and women have applied for advice. Officers of the army who have taken a large proportion of these would have taken their lives if the bureau had not intervened.

In preparing a final report of the work of his department Brigadier McMillan has compiled a table of "causes to commit suicide." Lack of employment leads to the most frequent entry, "drinking," a close second. Then come "gamblers," "financial difficulties," "family troubles," and half a dozen other causes of less frequency. Twenty-seven ascribed their desire for death to loneliness.

MANY DROWNED IN WRECK.

Lives of Life not Yet Ascertained in Foundering of Philippine Launch, San Gabriel.

(ASSOCIATED PRESS DAY REPORT.)

MANILA, July 17.—The number of lives lost through the foundering of the launch San Gabriel, while on its way from Manila to Corregidor, is yet uncertain. Sixty-one passengers and members of the crew were rescued. It is generally estimated that the number of passengers and crew numbered ninety. Fifty-five of those rescued clung to a life raft and were buffeted about by the heavy seas for four hours, when the German steamer Suworow rescued them. Two more reached Corregidor in life boats. The passengers on the launch were thrown into a panic when the heavy seas tore out some of the San Gabriel's planking and she began to fill, and terrible scenes were enacted. The vessel was greatly overhauled and the life boats proved to be rotten and worthless.

Few of the women and children on board escaped. As far as known now there were no Americans among those drowned.

PEARL SAILS FOR NORTH POLE.

SYDNEY (N. S.), July 17.—Commander Robert E. Peary sailed today on the steamer Roosevelt in another attempt to reach the North Pole. His last attempt, over the ice, on the ship's side, was that he expected to accomplish his purpose.

BIG OIL WELL STILL BURNS.

TAMPICO (Mex.) July 17.—The great oil well Lake Tampico, in the Gulf of California, oil region, continues to burn. The surrounding country is in great danger from the flow of burning oil and a fortunate circumstance just now is the rainy season. Heavy rains are falling almost constantly in that region.

EX-ACTRESS WELL RECEIVED IN FRANCE.

Mrs. William E. Corey,
formerly Mabelle Gilman, who finds opening in Paris society that is denied
her in America.

UP AND DOWN THE VALLEY.

PTH OF NEWS FROM THE MIDDLE WEST.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, July 17.—[Exclusive Dispatch.] Cool weather, with land breezes that scattered the humidity, reached Chicago today. Heavy showers of rain. The temperature fell to the low seventies again and the formation of snow Chicago will be one of the garden spots of the country during the next two days. Today's maximum temperature was 77 and the minimum 71 deg. Middle West temperatures:

BOLTHEAD KILLS BOY.

(BY DIRECT WIRE TO THE TIMES.)

ALEXANDRIA (Ind.) July 17.—[Exclusive Dispatch.] Hugh Clegg, 14 years old, while passing a game of traction men, riding a track through the streets this afternoon, was struck by a bolt-head and instantly killed.

NOW WANT PENSION.

(BY DIRECT WIRE TO THE TIMES.)

POND DU LAC (Wis.) July 17.—[Exclusive Dispatch.] A resolution asking Congress to pass a law granting a \$12 a month pension to all laborers who have earned less than \$100 after they have reached the age of 65 and have been citizens of the United States for twenty-one years, was adopted at today's session of the convention of the Wisconsin State Federation of Labor.

FATALITY ENDS RACE.

(BY DIRECT WIRE TO THE TIMES.)

DAYTON (O.) July 17.—[Exclusive Dispatch.] Because he ran over and killed a laboring man while riding in his automobile, C. H. G. Cartow of Miamisburg today withdrew from the race for the Republican nomination for Congress in this, the Third District.

FOUND DEAD IN WELL.

(BY DIRECT WIRE TO THE TIMES.)

MOUNT VERNON (Ill.) July 17.—[Exclusive Dispatch.] Miss Ethel Hayes, 26 years old, a school teacher, was found dead in a well on the farm of her father, Theodore Holmes, of Mount Vernon. It is thought she was driven to suicide over a love affair.

WAS BALFOUR'S BROTHER.

(BY DIRECT WIRE TO THE TIMES.)

WAUKESHA (Ill.) July 17.—[Exclusive Dispatch.] A fact not generally known is that a brother of Lord Balfour of England was one of the men who volunteered to fight for the Union in the Civil War in Co. I, Forty-fifth Illinois Volunteers. A son of this Balfour, and therefore a nephew of the famous Englishman, is now employed as night watchman at the Naval Training School at North Chicago. His name is Henry R. Balfour.

ST. PAUL GROWING.

(BY DIRECT WIRE TO THE TIMES.)

ST. PAUL (Minn.) July 17.—[Exclusive Dispatch.] St. Paul on June 1, 1908, had a population of 225,000, according to the new city directory for this year, which will soon be ready for distribution.

STEVENSON AMBITIOUS.

(BY DIRECT WIRE TO THE TIMES.)

BLOOMINGTON (Ill.) July 17.—[Exclusive Dispatch.] Former Vice-President Adlai E. Stevenson next week will issue his formal announcement of his desire to enter the Democratic race for Governor.

FOUND DEAD IN WELL.

(BY DIRECT WIRE TO THE TIMES.)

MOUNT VERNON (Ill.) July 17.—[Exclusive Dispatch.] Traveling around the world without money and with one leg and two crutches as principal means of locomotion, is the task assumed by Henry E. Brouillet of Sioux City, Iowa, who passed through Chicago today. Brouillet made a wager of \$100 with the proprietor of a mercantile firm that he would complete such a circle of the globe within twelve months.

ST. PAUL GROWING.

(BY DIRECT WIRE TO THE TIMES.)

ST. PAUL (Minn.) July 17.—[Exclusive Dispatch.] St. Paul on June 1, 1908, had a population of 225,000, according to the new city directory for this year, which will soon be ready for distribution.

ELECTION INSURANCE.

LLOYDS FORCED TO RAISE BRYAN RATE.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, July 17.—[Exclusive and I believe it will check business. It is generally thought there will be a decrease in the rate within the next week. At a 10 per cent rate we could write several millions more of insurance."]

FOR A Sprained Ankle.

As usually treated, a sprained ankle will disable the injured person for a month or more, but by applying Chamberlain's Liniment and observing the directions with each bottle faithfully a cure may be effected in many cases in less than one week's time. This liniment is a most remarkable preparation. Try it for a sprain or bruise, or when laid up with chronic or muscular rheumatism, and you are certain to be delighted with the prompt relief which it affords.—[Adv.]

The "Odylic Dynamie."

Mr. R. G. Davis, whose discovery of his marvelous odylic force has crowded his real estate office with sick and suffering humanity, has now come to the conclusion that temporarily his personal time and attention at his office room 60, Frost Building, is to be devoted to old and suffering. Free demonstration every Sunday evening from 8 to 9 o'clock at Chutes Pavillion.

The twelve guinea rate is too high

JUSTITIA OR ATROPOS?

ZU EULENBERG MAY DIE SOON.

German Prince's Trial Indefinitely Suspended.

From His Stretcher Protests Against Delay.

Borne Sobbing from Presence of Judges.

ASSOCIATED PRESS DAY REPORT.

BERLIN, July 17.—The trial of Prince Philip zu Eulenbergs on charges of perjury in connection with the court-martial of last year was indefinitely suspended yesterday because the Prince is in a half-dying condition. He has been growing steadily weaker during the eighteen days of the trial.

The court probably would have postponed the trial before today had it not been that the German newspapers insisted that no consideration be given the fallen favorite of the Emperor—that an aristocrat should not be permitted to defer the verdict of the court by what they intimated was a pretense at illness.

The Prince's short appearance in court yesterday, according to Dr. Hoffmann, the physician appointed by the court to examine him, today was followed by great exhaustion and there was imminent danger of thrombosis. The Prince lay on a cot in front of the row of chairs placed at one end of the room for the judges. Judges told Dr. Hoffmann that he desired to be taken from the charity hospital to the Mosabit Prison, where accused persons are usually confined. Dr. Hoffmann replied that this could not be done because of the Prince's condition. The process of examination, Dr. Hoffmann thereupon moved the trial be indefinitely suspended.

The Prince querulously agreed to the postponement. He raised himself with difficulty from one elbow and said in a shaky voice:

"I am both mentally and physically quite well enough to go on with this trial. The sword has swung for so long over my neck that I wish it would either fall or be taken away."

Princess Zu Eulenbergs in the mean-

time had privately represented to the presiding judge that her husband was in no condition to undergo a further strain. The judge then withdrew for consultation and soon announced that the trial had been deferred without date, the prisoner not being in a condition to proceed.

The Prince broke down and sobbed when the judges refused to continue the trial. In a weak voice he urged them to go on and put an end to his long suffering.

"It is true enough that I am ill," he exclaimed, "but what matters that when a man contends for his innocence and his honor?"

Then raising up he struck the table at the head of his cot with his fist and exclaimed violently:

"I object to the uncertainty!" The trial is now postponed, leaving the public in doubt as to whether I am guilty or innocent. I beg you to be merciful! I must now live for the continuation of the trial!"

TRIPLETS DIE OF HEAT.

Three Tiny Graves Pathetic Reminder of Three Hot Days in New York.

ASSOCIATED PRESS DAY REPORT.

NEW YORK, July 17.—Out in the Lutheran Cemetery, Newtown, Queensborough, Adolph Lipold, 10, was indefinitely suspended yesterday because the Prince is in a half-dying condition. He has been growing steadily weaker during the eighteen days of the trial.

The court probably would have postponed the trial before today had it not been that the German newspapers insisted that no consideration be given the fallen favorite of the Emperor—that an aristocrat should not be permitted to defer the verdict of the court by what they intimated was a pretense at illness.

The father of the three dead children is a gardener in the cemetery. With his wife, Elizabeth, he lives at Middle Village. The children were born January 16.

The heat of the last few days made them ill. They died one after another within a period of three days. Then three little granite slabs will be set up.

NEWS OF THE PACIFIC SLOPE

ENTERPRISING.

JAP INDUSTRY ESTABLISHED.

Company Incorporates for Million at Tacoma.

Will Carry on Trade With Oriental Nations.

Mod Farm and Colony to Be Features.

IT'S DIRECT WIRE TO THE TIMES!

TACOMA, July 17.—[Exclusive Dispatch.] The United Industrial and Commercial Company has incorporated, with a capital of \$1,000,000, to carry on trade with Japan and other oriental countries, handle Japanese products, establish headquarters for Japanese citizens and the higher class of Japanese workers.

James R. Churchill, H. C. Kumamoto and Roger Knott are names as trustees. The company owns 160 acres at head of Hyatt's Creek, at Milton, on the Sacramento Inter-Urban Railroad. It is proposed to establish a model farm, with extensive greenhouses, fruit orchards, vegetable gardens and stockyards for breeding high-grade stock.

An apartment house will be built; in cottages and hotels, with stores, studios, manufacturing plants of various kinds in which Japanese are particularly skilled, and everything to make a prosperous Japanese colony.

C. Kusumoto, manager of the colony, is one of the best known Japanese in the northwest.

Business now leases a large area of valley lands about Milton. They are gradually getting control of the valley, and the Japanese are the vanguard between Tacoma and Seattle.

VALLEY COLLISION AT TACOMA.

Passenger Injured and Motorist Will Probably Die—Cars Not on Curve.

ASSOCIATED PRESS DAY REPORT.] TACOMA, July 17.—In a head-on collision between electric cars at the intersection of the Tacoma and the main line of the Puget Sound and Northern, Capt. J. M. McRae of Tacoma had both legs crushed. The man, who was injured internally and is not expected to recover. Eleven passengers were injured, the following day.

J. E. Lewis, Tacoma, injured internally; W. W. Wilson, aged 12, Parkland, slightly injured about the head; W. H. McRae, farmer, Fernhill, internally and about the head; W. W. Worthy, Tacoma, bruised about the head; W. H. McRae, driver, Tacoma, rib bruised about body; and W. H. McRae, left arm badly bruised.

John G. Gaffney, Fernhill, right leg broken; A. M. Morris, Tacoma, left knee wounded; W. H. McRae, Roseburg, Or., knee bruised.

Tacoma, bruised body and face.

He was taken to the hospital and his injured car from Tacoma to the switch a short distance and, heeded back to Vancouver. To date, he paid the fee under protest, and was admitted. He will take the matter up with the head of the Department of Commerce, who is at Washington, and endeavor to punish the Seattle immigration inspectors.

He took a trip to British Columbia last week, and the rejection occurred when he attempted to return to this country. He is reported to be worth \$10,000.

IT'S DIRECT WIRE TO THE TIMES.] BELLINGHAM, July 17.—[Exclusive Dispatch.] Because he was born in Scotland and had never been naturalized in the United States, James Ross, a wealthy rancher of North Yakima, who has lived there two years, was yesterday refused admittance into the United States without the payment of an entrance fee of \$4.

Upon his refusal to pay, he was taken to the deportation office in Seattle, headed with a crew of 10 relatives and, deported back to Vancouver. Today he paid the fee under protest, and was admitted. He will take the matter up with the head of the Department of Commerce, who is at Washington, and endeavor to punish the Seattle immigration inspectors.

He took a trip to British Columbia last week, and the rejection occurred when he attempted to return to this country. He is reported to be worth \$10,000.

IT'S DIRECT WIRE TO THE TIMES.] BELLINGHAM, July 17.—[Exclusive Dispatch.] One of the features of today's Chamber meeting was an interesting account of the perils and dangers endured in Arctic travel by the first survivors of the ill-fated Greeley Polar expedition. Maurice McNamee, who was rescued while still in the arctic region, told of the months at Cape Sabine, of the arduous endurance endured by the party, of the perils of the bear and the arctic fox.

He was rescued while still in the arctic region, told of the months at Cape Sabine, of the arduous endurance endured by the party, of the perils of the bear and the arctic fox.

IT'S DIRECT WIRE TO THE TIMES.] RENO, July 17.—[Exclusive Dispatch.] A meteor, described as big as a house, fell last night near the railroad at Uspal, a small station twenty miles east of Sparks, and Engineer John George on train 22, mistaking the body for a signal, brought his train to a stop. Attracted by the queer sight, passengers on the train piled out on the platform, but none ventured into the hills near by, where the heavenly missile is supposed to have struck.

It was the second fall of the meteorite, which was seen in the windows of the local furniture and surrounding property and the front portion of the hotel were saved.

RECORD RAINFALL AT PHOENIX.

Classified Liners.

FOR SALE—Lemon and Orange Groves.

FOR SALE—5 ACRES AND A GURE THING.
\$1000.

This opportunity is unusual because the land should be worth \$1000 on acre at the very least in three to four years. It is not like buying land in the city, where the value may be rising. This property is in the midst of the most prosperous community in the State. It is located in a city with beautiful streets, with walking distances to two rapidly growing cities. It is in the famous Monte Vista tract, 10 miles from Los Angeles on the transcontinental railway line, and is well developed. It is between the two big interior cities of Southern and Ontario. It is only half a mile from the famous schools and churches and schools of Ontario. Improved orange and lemon groves at \$1000 to \$1500 per acre are to be had on both sides. It has a stream, a water pipe and a store of water stock goes with each acre. Location is excellent.

THE CITY IN BRIEF

"The order of the day."

NEWS AND BUSINESS.

Friend to the Needy.

The Associated Charities yesterday received by mail a \$10 bill, accompanied by a brief note signed "A friend," asking that the money be used to help persons in need. It will be devoted to that purpose.

Passenger Breaks Conductor's Nose.

In attempting to put a passenger off his car near the Plaza late yesterday afternoon, W. A. Smith, a conductor, was knocked down and his nose broken. The passenger, who refused to pay his fare, was taken to the Receiving Hospital and then taken to his home, No. 267 Jeffries Avenue.

Colicay Ex-Constable Arrested.

A. E. Estow, formerly a constable of Calexico, was arrested yesterday afternoon on West Sixth street on the charge of embezzlement. He is accused of failing to account for a small sum of money taken from a prisoner whom he arrested. An officer from Imperial county will arrive today to take Estow back for trial.

Mrs. Ybarra's Funeral.

The funeral services of Mrs. Rosa Martinez Ybarra, who died Wednesday night, will be held at 10 o'clock at the Our Lady of Angels at 9 o'clock regular mass this morning. Mrs. Ybarra was 72 years of age and was born in Los Angeles. Before her birth the family, which has numerous branches here, was old in this section. Her leaves a widow and one daughter. The funeral will be held this afternoon at 4 o'clock in the First Baptist Church.

Funeral of Appd Deacon.

James Chapin, infirm for several years on account of advanced age, died at his home on Thursday afternoon, aged over 80 years. He was a deacon in the First Baptist Church, which organization he was a member for more than thirty years. He leaves a widow and one daughter. The funeral will be held this afternoon at 4 o'clock in the First Baptist Church.

Valuable Rings Disappear.

John P. Burke, vice-president of the Southern California Mining and Smelting Co., Andrews, branched, reported to the police yesterday the disappearance of two solitaire diamond rings valued at \$350, and a ring set with a sapphire valued at \$100. The jeweler was called. Thursday evening at 8 o'clock Burke was at his office in Santa Paula, and he believed they have been mislaid, and not stolen.

Cub Bear Table Decoration.

La Fiesta Parlor, No. 256, Native Sons of the Golden West, entertained 400 members at Native Sons' Hall Thursday evening with a benefit entertainment. A feature of the table decoration was a live cub grizzly bear gaily decked with yellow ribbon. Deputy Grand President Edward B. Lovis was the toastmaster. Elaborate plans are being made by the Natives for the celebration of Admission Day at Santa Monica.

New Post Office Annex.

Annexes will probably be added to the list of suburban towns which are served with free mail delivery from the Los Angeles postoffice. A special government agent is now in the field, making an investigation, and he is expected to report favorable. He has come down from San Joaquin territory, adjacent to these towns are now under the Los Angeles city free delivery system, inaugurated by Postmaster Flint, and the plan is working well. Within a few years all outlying towns probably will be included in the Los Angeles postal system.

Road Rules.

Atting Physician Harrison has received a circular letter from Washington calling attention to some of the regulations governing the duties of rural carriers. The communication states that reports have been received from certain sections of the country to the effect that rural carriers are allowed to make deliveries on the strength of their routes. This is a violation of the regulations. The carriers are allowed to purchase articles too bulky to go in the mails for their patrons, but it is forbidden to carry free any articles that might be mailed.

LETTERS TO THE TIMES

The Times freely publishes the views of our writers, without criticism, for written opinions. We invite write plainly, state clearly. The space of 200 words, or the equivalent in two columns, is the limit. We are not responsible for what we print.

The Betrayal of the Negro.

LOS ANGELES, July 17.—(To the Editor of The Times.) A handful of negro politicians who have always been affiliated with the local Democratic "machine," met the other night and "rescued" to oppose the nominees of the Republican party in the National, State and county campaign.

As long as the game of politics exists, there will always be venal politicians, white and black who scruple not to betray their followers for personal prestige or profit.

That any considerable number of negroes will permit themselves to be cajoled into voting for their haters, detractors, despilers and persecutors, is absolutely unbelievable.

What civic rights the American negroes have won, have been taken from the Republican party. It purchased for him his freedom, his self-respect, his franchise and his future, at an in-calculable cost of blood and treasure.

The Democratic party then resisted his participation and now would rob him of his suffrage.

The Republican platform reaffirms the party's historic record in favor of justice to the negro. The Democratic platform is not only a record of the Southern States' sins of his wrongs, but to the Southern States still continue to disfranchise him, and Southern Democrats still continue to openly advocate statutory law for the white man and tyranny for the black man.

Despite all this, Democratic politicians, white and black, have the audacity to seek the negro vote, and calmly ask the colored man to strengthen the hand that holds the halter over his head.

Aside from sentimental considera-

tions, there are the most powerful business reasons why the negro should vote the Republican ticket this year. The election of Taft means the renewal of prosperity on a larger scale than ever before. The election of Wilson would unsettle all commercial, industrial and financial affairs for a more or less extended period, and would plunge the country into the throes of depression and adversity.

It is generally the case that hard times generally affect the negro among the first, and usually very severely. He least of all, can afford to drift with privation and misfortune through the winter months. The colored man should not hesitate to denounce and repudiate those among him who would sell him for a Judas kiss.

VENTURA.

VENTURA, July 17.—Gordon Cummings, A. B. Bookout and Bruce Williams, Barbers, have cut telephone wires on a chain, cutting the telephone wires belonging to the Southern Pacific Railroad and Western Union Telegraph companies. The crime is believed to have been committed last December. T. F. Tung, a telegraph agent at Fillmore, is the remaining witness. The case will be heard before Justice Titus at Santa Paula on August 4.

Burt Curtis sent up from Oxnard for six months for a few weeks ago, escaped while working in the courthouse grounds Tuesday, and has not since been heard of.

Superior Judge Ewing, with his wife, left today for San Francisco. Superior and George Gorsch were examined by an insanity commission yesterday, and committed to Napa Insane Asylum. This makes six men sent up from this county to the state hospital. One, a Mexican named Martinez, became very violent soon after being incarcerated and died in great agony.

A bean expert says of the lice found on the lime bean vine that the country is infested with the insects and not bad except in a limited circuit on the east side of the city, and that the acreage affected is not more than 200. He says that the lime bean looks better, and that the yield will be enormous.

The growers in Ventura county are now in the middle of the greatest fruit harvest in the history of the county. The lime bean vine is the lime of fine size and quality. So heavily are trees laden that in many orchards drooping of limbs had to be resorted to. Pits and fruit workers are, in demand. It is estimated the crop will be between 5000 and 6000 tons of dried fruit.

The court of Justice Ortega has failed to become the Greene of Southern California. His honor has always been a friend to the loving couple, but he will be more so for the reason that he gives credit when the groom has not the "price." This morning William Holland and Virginia Anderson, a loving colored couple from Oxnard, came before Justice Ortega to be married. Holland, a white man, and Holland started out happy, with his bride on his arm. The justice called him back and softly said, "It's please," Holland confessed that he had not that much money. "Oh, well," said his bride, "let's go I still not allow to email a man to stand not allow to him and his happiness."

This ceremony was no sooner finished than his honor was called upon to unite in wedlock Ernest A. Moulton and Mabel Hill, of Main Street, and Moulton Hill, San Francisco. The couple was on the way to Los Angeles, and stopped off in Ventura long enough to be made man and wife.

The Current Events Women's Club of Oxnard, with a short ride over the grave of Mrs. Olive Man, is fitting a monument to her memory as the first white school teacher in California. She died in this county in 1892. The inscription on the monument will read: "1892-1900. Mrs. Olive Man. The First American School Teacher in California. Taught in 1894 in the Old Mission, Santa Clara. Erected by the Current Events Club, Santa Paula, 1908."

ARREST IN TIMBER FRAUDS.

A. E. Marshall Surrenders Himself to United States Marshal New York on Oregon Indictment.

(ASSOCIATED PRESS DAY REPORT) NEW YORK, July 17.—A. E. Marshall, manager of the Standard Protective Society, who, with Henry G. Cooke, president of the Oregon Ranching and Timber Company was indicted on a charge of conspiracy to defraud the United States by violating the law in relation to the sale of timber land in Oregon, surrendered himself to United States Marshal Henkel today. He was later arraigned in the United States Circuit Court and ball was fixed at \$3000. Cooke was arrested several days ago at Baker City, Ore. He is on his way here for trial.

The scheme to defraud in which Cooke and Marshall are alleged to have engaged was to get "dummies" gathered from different parts of the country to take up the quarter sections of timber land and at the expiration of the timber rights to have them establish a claim to sell the land to the Oregon Ranching and Timber Company.

INTEREST IN AEROPLANE.

Army and Navy Officers May Attend Test of Henri Farman's Ship.

(ASSOCIATED PRESS DAY REPORT) WASHINGTON, July 17.—Army and navy officers here are greatly interested in the coming of Henri Farman with his aeroplane to this country. If the dates fixed for the Frenchman do not conflict with the tests to be held at Fort Meyer, several army and navy officers may be present to witness Farman's flight.

Gen. John T. Harrison has received a circular letter from Washington calling attention to some of the regulations governing the duties of rural carriers. The communication states that reports have been received from certain sections of the country to the effect that rural carriers are allowed to make deliveries on the strength of their routes. This is a violation of the regulations. The carriers are allowed to purchase articles too bulky to go in the mails for their patrons, but it is forbidden to carry free any articles that might be mailed.

A Victor In Your Home It Takes But

One installment plan on Victors enables everyone to have this great piece of entertainment. \$1.00 will put a Victor in your home. This sum for half a dozen months. We'll put it in your home and you can have it right away—after you have tried them for seven days, commence to pay \$1.00 a month or weekly. Don't let another week go by without having a Victor to entertain you during the evening hours.

WHITTIER INQUIRY.

BERKELEY WASHING AT REFORM SCHOOL.

Witnesses in Trustee Desmond's Attack on Superintendent Greeley Tell the Investigators of Alleged Abuses. Thrusts at Newlin and Clark,

THAT Night Watchman Peck discovered a "blind pig" in the administration building.

That young ladies attending Berkeley have sent their washing to the State school by express, to be laundered there and returned at the expense of the State.

That Superintendent Greeley went driving so often in the evening with a woman employed in the girls' department, that an officer was sent to protest to the trustees.

That the State school has been a cesspool of immoral practices for years.

That the treatment of patients at the hospital is such as would seem to call for a grand jury investigation.

These are some of the allegations made by witnesses under oath at the Whittier State School investigation yesterday.

The testimony was supplemented by charges preferred by Trustee Desmond against Trustees Clark and Newlin, and by counter charges preferred by these trustees against Desmond. The hearing will continue this morning and may last for a week. Newlin's heifer has not been made an issue. Neither has the school bull—the four-legged one.

Night-Watchman R. M. Peck, who uncovered a "blind pig" in the Whittier State Reform School.

TEN BLOCKS FARTHER.

Extension of Temple-street Trolley Line in Progress—No Action on Washington Street.

The Temple-street car line is being extended about ten blocks to the north and west. Grading began yesterday. The route is from the corner of Temple and Hoover streets, north on the

SEASIDE CITY SIDES IN WITH HIGHWAYS.

Prominent Speakers at Beach Find Hearers in Hearty Sympathy—State Expert Comes to Aid in Stirring Up Sentiment.

THE good roads movement was enthusiastically indorsed by the voters of Redondo at an open-air mass meeting held at the sea-side city yesterday afternoon.

Secretary J. W. Eddy of the State Good Roads Association arrived yesterday to assist in the good roads campaign. He says the fight in this county will be the "keynote" campaign of the good roads movement in the State.

Mrs. Willoughby Rodman has called a meeting of the Civic Association for this afternoon to enlist the services of the women of Los Angeles county in the good roads movement.

Outside cities throughout the county are planning for meetings to boost the good roads project.

Santa Monica bay cities unite in support of the popular campaign.

Amid great enthusiasm the good roads campaign was boomed at Redondo yesterday afternoon at an open-air mass meeting. The proposition to bond the county for \$2,500,000 to supply money for carrying out plans pre-

which are covered by the report of the Highway Commission.

NOW THIS BEST TIME.

"There is no more favorable time than the present for the hiring of labor and the purchase of material at economical rates, and there can be no

Enthusiastic Open-air Mass Meeting Yesterday at the Redondo Pavilion.

President C. H. Burnett of the beach city's Chamber of Commerce addressing a gathering of five hundred persons. The great movement for the county's betterment was unanimously indorsed.

Charges and counter-charges involving about very one connected with the State School, from trustee to night watchman, marked the opening session of the investigation by the State Board of Charities and Corrections.

Trustee Desmond wants the scalps of the superintendent, the assistant superintendent and of his two brother trustees—and the other trustees. The superintendent and the assistant superintendent want the scalp of Trustee Desmond.

E. C. Moore, chairman of the Investigating Committee, announced the purpose and scope of the hearing as follows:

"It is the express request of the Governor that there shall be a full and impartial investigation, and it is the purpose of the committee to go beyond the limits of the charter and make a thorough investigation of every fact pertaining to the discovery of the exact condition of the school."

Desmond preferred nineteen specific charges against Superintendent Greeley, including a part of them against State Superintendent Clark. Then he filed a charge against Trustee Newlin and a second against Trustee Clarke.

ASSAULTS OTHER TRUSTEES.

The offense with which Newlin is charged is that he presented a bill for \$275.82 to the board for attending the National Conference of Charities and Corrections at Richmond, Va., last spring—and that he never attended the session.

Trustee Clarke is charged with complicity, in that he approved the demand after being warned by Desmond that Newlin had not attended the session.

Newlin and Clarke deny this allegation, and in turn charge Desmond with seven sundry offenses.

Trustee Newlin explained the dispute with night watchman by saying it is for attending the national session of the Society for the Protection of Truant and Wayward Children, as well as for the conference of Charities and Corrections.

He says he attended the first session, and was present for taking part in the second conference because he was called home the morning the conference met.

A number of the charges against State Superintendent Clark are set forth in the extreme, if they can be proved, there is likely to be a new superintendent and new assistant at the Whittier State School in the near future.

DESMOND'S CHARGES.

Here are the charges preferred by Desmond:

Greeley—That Greeley has permitted the

police of the school to fall far below the standard which ought to be maintained therein.

Second—That Greeley has permitted inmates to go to the outside houses of the women officers, Mrs. Grace Willis, and some of the boy inmates of the school, without taking proper measures, either to stop such conduct or to discharge the husband, L. E. Willis, a woman officer who also is charged with equal improper associations; also that the superintendent refused to discharge said officer until first ordered to do so by the trustees, who were then compelled to do so by the trustees, thereby demoralizing the boys referred to, and causing the greater scandal to a great number of boys in the school.

Third—That he invited a parole girl, daughter of a woman officer, to his home in the evening and sundry other conduct which ought to be maintained in the school.

Fourth—That he allowed Victor Henry, a boy of 16, to remain in the school, which interferes with the good discipline of the school.

Fifth—That officers have reported boys smoking and chewing tobacco, and he has not done anything to stop them.

Sixth—That he allowed love letters to be sent by the girls to the boys, which interferes with the moral discipline of the school.

Seventh—That he has given scandal to the girls' school by improper relations with female officers of the girls' school to girls around Whittier for pleasure and entertainment.

Eighth—That he is untruthful and dishonest in his conduct of the school.

Ninth—That he has been guilty of acts of brutality toward pupils and persons other than girls.

Tenth—That he has recommended for parole boys whose conduct was poor and who had the right to be paroled.

Eleventh—That he has given discharge without cause.

Twelfth—That he has given discharge without cause.

DESPERATE.

HIGHWAYMEN SHOOT IN ATTACK ON CAR.

A N ATTEMPT was made to hold up the crew of Boyle Heights car

No. 258 at First and Indiana streets about 11 o'clock last night, when two men leaped out of the darkness and signaled Motorman F. E. Johnson to stop. He regarded their actions as suspicious and instead of stopping threw on the current. At the car approached they suddenly appeared and hailed him. Johnson was unable to say whether one of the men was masked.

Johnson was a young and roughly dressed, wearing soft black hats. As soon as they fired the shot they turned and ran

men. He was able to furnish the police with a good description of the would-be robbers.

When Motorman Johnson changed the headlight for the return trip to the city, he saw the men walking up the track. They left the rails and concealed themselves about half a block from the terminus of the line. When the car approached they suddenly appeared and hailed him. Johnson was

unable to say whether one of the men was masked. The two men were young and roughly dressed, wearing soft black hats. As soon as they fired the shot they turned and ran

men. He was able to furnish the police with a good description of the would-be robbers.

(Continued on Ninth Page.)

BLANCHARD GIVES DETAILS.

Mr. Blanchard came in with a short talk, giving the history of the good roads movement and explaining the plans of the Highway Commission from a technical standpoint.

"The good roads movement originated in Pasadena," said Mr. Blanchard. "It had its inception in the Board of Trade of that city. Representatives of that organization conferred with the

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.
The sale of municipal property for taxes caused the City Attorney, yesterday, to ask the Council to employ a searcher to make a complete transcript of all public property so that such a contingency will not arise again; the compilation of all ordinances also is recommended.

The Home Telephone Company made a proposition to the Council for the installation of the Foster Burglar-alarm system.

The Board of Public Works has received a communication from property owners on Twenty-eighth street, asking that new system of street improvement be tried on that thoroughfare.

Proprietors of the Los Angeles Gas and Electric Company and the Huntington system, yesterday, appealed to the Board of Equalization for reduction of assessments.

Lawyers testified, yesterday, in the trial of Mrs. Kettura B. Osborn in Judge Munroe's Court on the charge of obtaining money on false pretenses, that they think her mind weak.

AT THE CITY HALL.

WHO SHOULD PAY THE TAX?

CITY PROPERTY SOLD BECAUSE SOMEBODY FORGOT.

City Attorney Hewitt Recommends Complete Transcript so That Municipality Will Know What It Really Owns—Other Needed Reforms.

It would seem to be a rather peculiar situation that an officer of the city should either sell or permit to be sold a piece of city property for unpaid taxes, and yet it appears that this very thing has been done at least four times in Los Angeles.

The fact was brought out by City Attorney Hewitt, who yesterday recommended to the City Council the making of a complete transcript of the real property owned by the city, at the earliest possible date, and the appointment of a competent searcher to do the work. On this point, Mr. Hewitt says:

"The fact has appeared recently that at least four parcels of city land have been sold to private parties for delinquent taxes; assessed thereon, and this office is now contesting the title thereto in the courts. This circumstance alone is sufficient to establish the necessity for making the inventory."

He also recommended that a committee of three, consisting of Emmet H. Wilson and Joseph Ford, of the City Attorney's office, and one person from the Council, the City Clerk, be appointed to compile the ordinance, arguing that beside the desirability and convenience of such a compilation to both citizens and officials, the work would undoubtedly result in "correcting any errors in the compilation of existing laws; the harmonizing of conflicting ordinances, and making clear the meaning of others."

In the third section of his report, the City Attorney makes an effort to stop haphazard use of instruments and offices to prepare ordinances. He recommends that a rule be adopted that hereafter no ordinance be drawn except on written request from a member of the Council, a committee of that body, or from the City Clerk, or under specific instructions from the Council, such written request to fully state the intent of the proposed ordinance.

"This has occurred frequently," said Mr. Hewitt, "that ordinances have been presented and in some instances adopted, when the members of the Council have misapprehended their meaning and effect."

These matters referred to will be taken up by the Council at its next regular session. Adjournment of yesterday's session was taken to 10:30 o'clock this morning, when the city tax rolls will continue to be read.

FOSTER ALARM SYSTEM.

HOME TELEPHONE PROPOSITION.

The Home Telephone Company yesterday submitted to the Council a proposition for the installation of the Foster Police Alarm system. The company offers to install 100 lights and boxes, using the poles and other equipment now in place, and to keep them in perfect condition for a term of three years at an aggregate cost of \$15,000, payable monthly in advance. It is stipulated that, should the use of the system be discontinued at the expiration of three years, the city may pay half the cost of installation, and if it is desired to extend the system, it may be done at the same rate per box. The proposal was referred to the Finance Committee of the Council.

WANT BETTER STREET.

WILL TEST NEW SYSTEM.

The Board of Public Works has received a petition asking abandonment of the proceedings for the improvement of Twenty-eighth street between Franklin and Hoover, and has prepared a communication to the City Council asking that the petition be granted and the City Engineer instructed to prepare new specifications, in accordance with the request of the property owners.

The original specifications called for an oiled street, built on the same plan as Adams street, but it is now desired to oil content, and to have a higher percentage of asphalt, and broken stone instead of sand. It is said that this will make a street fully equal to asphalt, and will cost 15 cents a foot, as against 22 cents a foot for the latter. The improvement of Adams street cost about \$100,000 a square foot, while it looks well, it will not stand heavy traffic, and will require constant attention to keep it in repair.

COUNCIL SCOLDED.

ABOUT CHARTER ELECTION.

A letter from the Board of Directors of the Chamber of Commerce, addressed to the City Council, was read yesterday by the clerk and ordered filed. The Council is scolded for its action on the charter ordinance.

"We note with some surprise," runs the letter, "the action of your honorable body rejecting the ordinance calling an election for a Board of Freeholders to prepare a new charter, postponing action for two years. Without entering into the question of whether or not a new charter is necessary, we suggest that the decision which you have just made, arrived at in the beginning, would have saved our committee a large amount of time which they could not afford to lose."

TESTIMONY IN OSBORN CASE.

Attorneys H. T. Gordon, Chester K. Smith and L. R. Wharton, who, at different times during the past five years have been consulted on legal matters by Mrs. Kettura B. Osborn, testified yesterday at her trial in Judge Monroe's court on a charge of obtaining \$1000 from Samuel E. Larkin by false

AT THE COURTHOUSE.

FIFTY PER CENT. FOR CREDITORS.

RECEIVER OF DEFUNCT BANK WOULD PAY DIVIDEND.

Asks Court's Permission and Presents First Report of Financial Condition of Defunct Occidental Trust and Savings Institution. Cash on Hand Nearly \$2000.

Asking that he be permitted to pay a 33 1/3 per cent. dividend to creditors, N. Blackstock, receiver of the defunct Occidental Trust and Savings Bank, yesterday filed in the Superior Court his first report. It shows that he has \$2000 in cash, and that the institution's liabilities amount to \$2237.76.

The total of the receipts have been \$2000.14, and the expenses, \$200. The bank's financial condition is as follows: Five commercial over drafts, total \$200.16; 161 commercial deposit accounts, total \$204.71; 27 ordinary savings accounts, total \$124.47; 27 bills receivable, total, \$12.35.67; two claims receivable, totaling \$142.50. Two claims for \$100 and \$105, by Oscar Parlier and J. C. Myers, are listed as disputed. Blackstock thinks that fully 50 per cent. will be realized by the bank's creditors.

DOLLAR TALKS.

REDUCTION PLEAS URGENT.

Attorney Trowbridge, representing the Edison Electric Lighting Company, spoke before the Board of Equalization yesterday in support of the corporation's petition that the assessment of \$2,468,560 on its franchises be canceled.

"We contend that the net earnings of a corporation should be the basis of assessment," said Mr. Trowbridge.

"We are assessed several times as much on our franchises as either the Los Angeles Gas and Electric Company, which shows several times the amount of our net earnings, or the Pacific Light and Power Company, which also shows net earnings greatly in excess of that of our company."

"Only about 200 of the 1,120 corporations existing under California law are assessed, and we assert that the authority of a decision of the Supreme Court of the United States, that an assessment of franchises does not extend to a class of franchises is unconstitutional. At the same time, the assessment of our franchises ought to be reduced proportionately to the valuations placed on the franchises of our competitors. Surely the gas franchises for the use of Los Angeles streets are as valuable as the traction franchises for the use of the same streets. If the Los Angeles Traction Company's franchise right in Los Angeles streets is worth \$2,000,000, our franchise right should be assessed at a lower rate, for it is worth less."

Concerning the valuation, he called attention to the fact that the attorney was not making a sworn statement and that therefore his statements could not be accepted as a basis for action.

The board took the petition under advisement.

Waite Cline, president of the Los Angeles Gas and Electric Company, asked that the valuation of the corporation's franchise be reduced from \$2,724,460 to \$200,000; its street franchise from \$1,200,000 to \$200,000, and its traction franchise from \$800,000 to \$200,000.

"Our property is worth in all about \$7,815,000, the value of the stocks and bonds at par," said Mr. Cline. "My associates and myself control the majority of the stock and I can't say at what price we would sell, but I do know that we have more than \$10,000,000. About \$2,800,000 worth of bonds have been issued, and 40,000 shares of stock have been sold at par."

We are willing to pay on a \$200,000 franchise of our Los Angeles street franchise, we think a higher figure is unjust," said Second Vice-President William Baurhyle.

"You have about 60,000 meters returning a yearly revenue of about \$24,000," reported Assessor Hopkins.

"At the valuation this year, you will be paying about twenty cents for the privilege of collecting \$24 from the people. Do you think that an excessive price?"

Mr. Baurhyle thought it was. The attorney, W. E. Plater, representing the Huntington traction system, in a sworn statement, asked that the assessments of the Pacific Electric and Inter-Urban lines be put at no higher figure than \$200,000. He said that the city street franchises of the Los Angeles Railway Company, assessed at \$2,800,000, is worth only \$2,500,000, and that the cancellation of the \$200,000 franchise valuation of the Los Angeles & Redondo Railway Co. He stated that the Pacific Electric's not earning anything on its franchises, while the United Railways of San Francisco shows earnings of 45 per cent. of the gross.

The Home Telephone and Telegraph Company petitioned that the \$266,750 valuation of its 100 telephone franchises be cut to \$200,000, and the Hamburster Reality and Trust Company asked a reduction from \$792,325 to \$650,427. No action was taken.

BOTH SEEM WILLING.

BUT DIVORCE IS DENIED.

"During four and a half years of married life my husband denied me for the time, and I always scolded him. I have no cause of him; I am worn out by his conduct. We didn't want me to divorce him, but we talked it over, and he finally agreed to pay half my attorney's fees."

"That's new to me," said Mrs. Gibson, her counsel. "I understood that Mr. Gibson would pay all the attorney's fees."

"I don't care to hear any more evidence," said the court. "The divorce is denied."

CHews UP PAPER.

TESTIMONY IN OSBORN CASE.

Attorneys H. T. Gordon, Chester K. Smith and L. R. Wharton, who, at different times during the past five years have been consulted on legal matters by Mrs. Kettura B. Osborn, testified yesterday at her trial in Judge Monroe's court on a charge of obtaining \$1000 from Samuel E. Larkin by false

pretenses. They think her of unsound mind. Attorney Gordon said that while he was acting for her son, Mr. G. Osborne, the mother made frequent calls at his office, and by ill temper and inability to understand matters of law convinced him of her mental weakness.

Attorney Smith said that in the spring of 1907 when Mr. G. Osborne retained him as counsel for T. G. Osborne, he thought her insane. During a consultation in his office regarding this particular matter she chewed regarding three or four sheets of typewritten paper, as at the main office.

The vacant space will be subject to meritorious entries, and it is expected that a number of railroad agents will secure quarters there.

A young woman attendant will furnish information on summer reports and other subjects and a complete information bureau is soon to be established at the main office.

The quarters are roomy, cool and beautifully fitted up. A number of new features will be added shortly and many improvements are planned for the use of patrons of The Times.

BODY IDENTIFIED.

Counsel will argue the case Monday morning.

COURTHOUSE NOTES.

REVIEWS-MISCELLANEOUS.

FRANCHISE TAXES.

The Los Angeles Brewing Company and the Los Angeles Brewing Company yesterday filed in the Superior Court individual suits against the city of Los Angeles to recover \$4647 and \$1677, respectively, paid under protest as taxes on the assessments of their franchises for 1907.

LAND DEAL.

U. M. Thomas yesterday filed in the Superior Court a suit against A. B. Smith for \$10,500, said to have been paid for 100 shares of stock in the West Hollywood Heights Company on the defendant's land, which he sold to the defendant.

It is asserted that the defendant told Thomas that he had paid \$10,500 for the tract in question, and that \$2,000 to be received for eleven acres, would be turned into the corporation's treasury. These assertions are all declared to be false.

DENIED DIVORCE.

Judge Bordwell yesterday denied Henry J. Nibbelink a divorce from Mrs. Julia Nibbelink whom he sued on the ground of cruelty. The wife was sent to court by Judge Jamison yesterday, and must remain there until they reach their majesties.

ON PROBATION.

Jose Martinez, who pleaded guilty to burglary, was placed on five years' probation by Judge Wilbur yesterday.

OLD MAN'S CRIME.

G. Rhines, an old man who admitted the theft of \$4,000,000, which he had been seen by Mrs. Anna Andrew, had been seen by her frequently with the woman, and that the relations of the two were a matter of common knowledge in Long Beach. Mr. McLain, D. W. Anderson, Harry Hansen, and others for the defense, said that, though they lived in the neighborhood, they knew of no improper behavior on the part of the defendant.

Two "VIEWPOINTS."

Mrs. Grace E. Parish, D. Parish, M. L. Schooley, Mrs. Anna S. Schooley, John Redden, H. E. Ashby and C. L. Holloway, testified in Judge Jamison's court yesterday in the case of C. L. Holloway, on charge of living in adultery with Mrs. Anna Andrew, had been seen by them frequently with the woman, and that the relations of the two were a matter of common knowledge in Long Beach. Mr. McLain, D. W. Anderson, Harry Hansen, and others for the defense, said that, though they lived in the neighborhood, they knew of no improper behavior on the part of the defendant.

LONGY IS HELD.

Attorney W. E. Plater, representing the Los Angeles Gas and Electric Company, asked that the valuation of the corporation's franchise be reduced from \$2,724,460 to \$200,000; its street franchise from \$1,200,000 to \$200,000, and its traction franchise from \$800,000 to \$200,000.

"Our property is worth in all about \$7,815,000, the value of the stocks and bonds at par," said Mr. Cline. "My associates and myself control the majority of the stock and I can't say at what price we would sell, but I do know that we have more than \$10,000,000. About \$2,800,000 worth of bonds have been issued, and 40,000 shares of stock have been sold at par."

We are willing to pay on a \$200,000 franchise of our Los Angeles street franchise, we think a higher figure is unjust," said Second Vice-President William Baurhyle.

"You have about 60,000 meters returning a yearly revenue of about \$24,000," reported Assessor Hopkins.

"At the valuation this year, you will be paying about twenty cents for the privilege of collecting \$24 from the people. Do you think that an excessive price?"

Mr. Baurhyle thought it was. The attorney, W. E. Plater, representing the Huntington traction system, in a sworn statement, asked that the assessments of the Pacific Electric and Inter-Urban lines be put at no higher figure than \$200,000. He said that the city street franchises of the Los Angeles Railway Company, assessed at \$2,800,000, is worth only \$2,500,000, and that the cancellation of the \$200,000 franchise valuation of the Los Angeles & Redondo Railway Co. He stated that the Pacific Electric's not earning anything on its franchises, while the United Railways of San Francisco shows earnings of 45 per cent. of the gross.

The Home Telephone and Telegraph Company petitioned that the \$266,750 valuation of its 100 telephone franchises be cut to \$200,000, and the Hamburster Reality and Trust Company asked a reduction from \$792,325 to \$650,427. No action was taken.

ONE BRIDES AND HUBBIES.

Endeavor Officers
Entertain Them.Women Set Lunch for
City Officials.Walt's Programme of
Camp Meeting.A meeting was given by the
the County Christian
Union last night at
the Union Club. The guests of
the day were Misses Jules and
their family identified with the
the County Christian Union.METHODIST CAMP MEETING.
The Huntington Beach camp meeting
is proving a marked success, the
attendance being large and the meetings
interesting. Hart and Mignani
the evangelists have met with
success everywhere, and their work
looks promising for the coming week.Mr. Hart will speak at 3:30 tomorrow
afternoon on "The Unpardonable Sin";
Tuesday evening on "Hell"; Thursday
evening on "Card Playing and
Kindred Evils"; Friday evening, "The
Killing Sin"; Sunday evening, 26th,
"Christ's Greatest Question."Mr. Hart is a keen and graphic speaker,
and handles his subjects without
gloves, and is well worth going to
hear.

CAMPAIGN IS ON.

The round-up of the captains and
companions for the Young Men's Christian
Association membership campaign,
which was well attended and enthusiastic
last night. Arrangements were completed
for securing the names of all
the men connected with churches, and
with all large manufacturing establish-
ments. Each man taking part in
the campaign was required to
sign a card covering his territory in order
that no young man may be overlooked.
Secretary Luther, who is spending a
vacation at Long Beach, and President
Letts, who is in Yellowstone Park, are both keeping in close touch
with the progress of the campaign. Mr.
Luther will return to the city on Monday.

STILL AN EDITOR.

Rev. P. H. Bodkin, who recently
sold the California Independent to this
city to the Palo Verde, has come
back to the city to conduct the
newspaper. He is the editor of a
handsome four-page paper, the
Palo Verde Valley News. It is pub-
lished at Blythe City. Neighbors
postoffice, both of whom are
in Riverside County. Mr. Bodkin
states that the Methodist church has
secured two lots and will begin the
erection of a church in October.

RED INSTEAD OF BRIDLE.

Color Plus in Steer Case Before Court
of Appeal Doesn't Move
Justices.

Because a stolen steer was red instead of
bridle, as alleged in the complaint of the prosecution, attorneys
for W. H. Hutchings and others, con-
victed of grand larceny in Inyo county,
envoed the case to the Second District Court
of Appeal. There were a number of other
cases for a new trial, but the
color of the bovine appeared to be one
of the strongest points.

The learned justices make short
work of the appeal in an opinion hand-
ed down yesterday. Incidentally, they
rule that the cost of the trial
is not of abiding interest. The
judgment of the lower court is affirmed
and the defendants must serve their
sentences unless the Supreme Court
should be asked to take a hand in the
case.

The animal belonged to one George
L. Wallace. It grazed in a pasture
clos to that owned by the mother of
one of the defendants, and one day
was captured. The hide was afterward
found in the possession of an Indian
and by an attorney for the defense
was claimed as evidence. The
defendant's lawyer, however, said
he would not be bound by the
evidence he had, and the trial
was adjourned. The defense
will be heard in the trial on
Tuesday, Aug. 1, at 10 a. m.

MILL FOR IRENE.

A mill of 250 tons daily capacity has
been ordered for the Irene mines of

WATER IS IN OLD DOMINION.

PUMPS TAKE UP MILLIONS OF
GALLONS DAILY.

Amount Equals that of Tombstone's
Mines Famous for Wetness—Cop-
per Production Kept Down and Still
Will Reach Three Million Pounds
for This Month.

SPECIAL CORRESPONDENCE OF THE TIMES.

PHOENIX (Ariz.), July 16.—A tremen-
dous amount of water has been struck
in the Old Dominion property at Globe,
Arizona, the old copper mine on the company's
Glacier claim. It is believed to be
independent of the flow assumed to
come through a fault from the bed
of Pinon Creek, where a bedrock dam
has been built to divert it around the
company's ground. The pumps at the
mine for a week past have been han-
dling over 4,000,000 gallons a day, fully
as much as is pumped from the Tomb-
stone mines, far famed for their wet-
ness. Most of this is from the tenth
and twelfth levels and is supposed to
come from old workings into which
the United Globe Company, a sub-
sidiary of the Old Dominion, has
poured millions of dollars. The
company's claim is that the water
will soon be exhausted. The water situation
and heavy development work are
keeping down the copper production,
which is expected to reach about 3,000,
000 pounds for the month, with four
furnaces working.

Still another rich strike of gold ore
has been made, four miles northwest of
Globe, with specimens running \$300
to the ton all the way from the
surface to the bottom of the location shaft,
now after four months of work.
It is believed to be the same supply
soon to be exhausted. The water situation
and heavy development work are
keeping down the copper production,
which is expected to reach about 3,000,
000 pounds for the month, with four
furnaces working.

The Sutton claims, two miles west
of Bisbee, have been sold for \$150,000,
payable in six months, to P. F. Murphy
and John S. Ryan.

TWO FURNACES START.

On the 11th last two furnaces were
started at the Greene-Cananea smelter
at Ronquillo, Sonora, the company's
smelter being operated at about
one-fourth capacity. The plant is
under charge of Charles F. Shely, formerly
superintendent of the Old Dominion
smelter at Globe. General Manager L. D. Ricketts is now in New
York, but is expected back next week,
when after two more furnaces may be
blown in. The management is
desirous that broad publicity be given
the fact that few additional men are
needed.

Economy has struck the Greene Gold-
Smelter Company, and the Greene Con-
solidated Gold Company has
been formed. The Greene Con-
solidated company has given W. C. Greene a lease on
the property, to open the smelter
and to divide profits with the
corporation. Epes Randolph has
resigned as one of the directors of the
company.

Nine miles southeast of Liano station
on the Sonora Railroad, the Car-
acalau Mountain Copper Company, a
Kansas City concern, is developing a
large copper property, with eight veins
that all show good values. The com-
pany is developing its ground and is
soon to be in full blast.

Tuesday production was resumed at
the United Verde smelter at Jerome,
after a shutdown from July 2. Three
great furnaces are running. The
smelter is now at the 1400-foot level,
with a drift which is being run
to meet it, is 1100 feet from the main
shaft. The whole distance of 7000 feet
is to be finished in October. The
smelter will use 3000 tons of power a
day if electric energy could be secured
from the Roosevelt Dam or the Salt
River Power Works.

In the same neighborhood, an announce-
ment is made that the 200-ton concen-
trator of the Ray Consolidated Com-
pany will resume operation within
six days.

Three thousand dollars has been spent
on the Talcum mine of gold ore
in the southern Mountain Mountains,
mainly in building a trail whereby the
property could be reached without the
use of balloons. The ore found is very
rich, but the country is precipitous and
rough in the extreme. Development work has shown that the rich
vein matter is broadening with depth.

MILL FOR IRENE.

A mill of 250 tons daily capacity has
been ordered for the Irene mines of

55. RAY CAMPBELL, Glendale.	1,145
56. CLARENCE GEE, 905 S. Alvarado St.	1,000
57. EARL CLARK, Carpinteria.	305

Who's ahead today? The Delta Chi girl, Hazel Franklin, who jumped back to first place by a stunning gain of 7000 points, two new annuals being included. The "Blue-eyed Marguerite" did not score but look out for tomorrow. One of these girls, or perhaps a boy lower down may hit the 50,000 mark by the end of the third week of the scholarship contest.

"Princess Alice" of Pasadena, that bright-haired young hustler, beat the Pomona boy again, and will no doubt fare more natural on the third line. The trouble is, no one can ever tell what the Pomona boy really intends to do. It is rumored that he will make a swift run to the very top one of these fine summer days. Pomona will be proud to see him in first place when Robinson and Mrs. Royar added more than 1500 to their scores yesterday, and that astonishing Leon Riesenweier of Pasadena duplicated his increase of the day before and skipped from 14th to 8th place.

The Colton contestant, Fred Swartz, dashed in with 2000 points yesterday and wrote to the scholarship manager to say that he has been busy with work in the country, and has not had the leisure heretofore to canvas. Hurrah for the Colton boy's start. It is the first prior to be awarded to the winner of the contest in addition to a

DEAF MUTE ENDS LIFE.

Dependent Because of Falling Health Ernest Shinn Finds Death With a Revolver Bullet.

Ernest Shinn, a deaf mute, aged 29 years, committed suicide last evening in his room at No. 235 Hewitt street by shooting himself through the head with a .32-caliber revolver. The body was found about 8 o'clock by the landlady. Shinn had been deaf about two hours.

About three weeks ago Shinn went to the house and secured a room. He was respondent of account of his failure to pay rent and to furnish food. Nothing could be found in his room to indicate where he came from, or whether he had any relatives.

JAPAN'S BUDGET FOR 1908.

BY WALTER J. BALLARD.

Japan's general budget for 1908, as reported in the Japan Financial and Economic Monthly is:

Expenditures Yen.

Revenue 613,956,329

Deficit 611,043,048

Increase in ordinary revenue. 4,915,291

Decrease in extraordinary revenue. 739,475

Revenue 51,737,034

Net decrease in total revenue. 51,412,935

The ordinary revenue increase of 76,256,944 yen is from such sources as taxes on incomes, business, land, sea, soy, sugar, textile fabrics, mining, issues of currency, bank notes, customs, transit, inheritance, revenue, stamps, post and telegraph, forests, profits from government monopolies, railways and debt. The increase was 100% over 1907.

Extraordinary revenue decreased by 26,000,000 yen, or 34.4%.

Expenditure was increased by 161,540,264 yen, or the disparity of local taxes, temporary loans and the surplus from the special military accounts, but there was an increase of 49,820,000 yen in the revenue realized from the disposal of surplus assets and contributions towards harbor constructions, public works, loans for Formosa public works, funds for school and libraries, and other contributions and grants. The result is that the decrease is shown of 51,737,034 yen.

A few comparisons of revenue in 1907 with the revenue from similar sources in 1906, the year preceding the war are interesting:

Revenues 1908 Yen 1907 Yen

General taxes 294,570,949 146,163,362

From public under-takings 144,281,222 55,656,830

From issue of loans 41,071,116 6,881,720

Banking and banking 6,568,285 2,458,320

Stamp receipts 20,262,477 14,169,480

Now as to expenditure in 1908 and 1907 budgets:

1908, Yen 1907, Yen

Ordinary expenditure 426,918,192 412,411,312

Increase in 1908. 14,563,879

Extraordinary expenditure 189,045,147 304,029,758

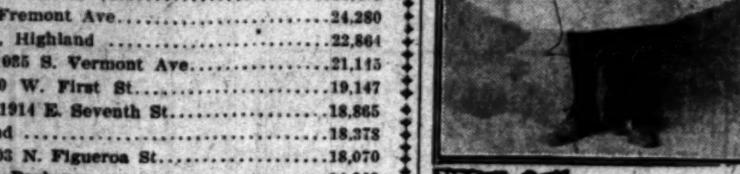

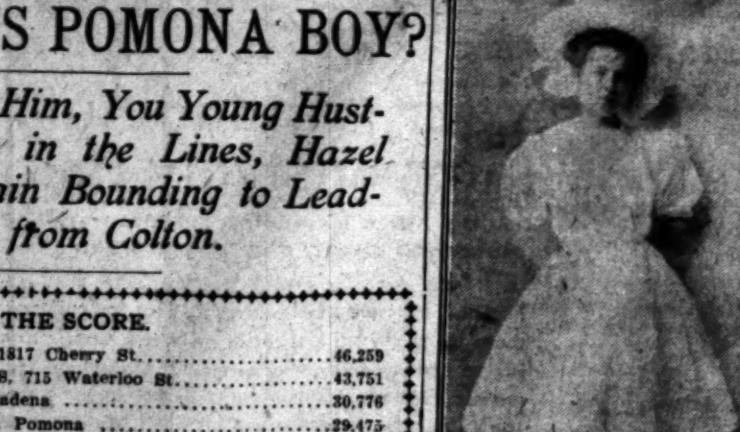

Decrease in 1908. 14,398,587

Net increase in 1908. 482,708

It is not necessary for our purpose,

Celeste Benton, the little Catholic candidate.

choice of scholarships is a splendid California piano from the Southern California Piano Company, valued at \$400. It is a beautiful instrument of superior construction, handled by an old and reliable company as a special feature, and is doubly guaranteed. It is known among musicians for its excellent tone qualities and responsive action. The case may be of rich mahogany or dark oak.

THE SCHOLARSHIPS.

Below is a partial list of the scholarships offered to contestants. It will be increased from time to time, as a number of other institutions will be included. The scholarships below represent a valuation of \$5000.

University of Southern California.

College of Oratory, Beulah Wright, Dean.

U.S.C. College of Liberal Arts.

U.C. College of Law.

L.A. School of Art and Design.

Dobinson School of Expression.

Huntington Hall.

California School for Boys.

Heald's Business College of Ocean Park.

Heald's Conservatory of Music, Long Beach.

Heald's Business College of Long Beach.

California Military Academy, Santa Monica.

Woodbury Business College.

Los Angeles College of Fine Arts.

Lyric School of Music, No. 732 South Olive street.

Piano, Vocal Course.

Lyric School of Music, Banjo, Guitar.

Willow School of Music.

Throop Polytechnic Institute.

St. Vincent's College.

The Verda School of Singing, No. 628 South Alvarado street.

De Chauvelin Conservatory of Music and Dramatic Art, Fraternal Brotherhood Building.

Los Angeles Military Academy.

Los Angeles Conservatory of Music and Arts, Mrs. Emily J. Valentine, President.

Phillips School of Short-hand Telegraphy.

Taylor School, No. 205-210 North Union avenue.

The Page School for Girls, No. 127 West Alvarado street.

Union School of Trades, No. 120 East Ninth street, with choice of three courses of one year each in electricity, plumbing or bricklaying.

Immaculate Heart College, Hollywood.

Brownberger Home School (business college).

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

PARADENA.
LIFE APART OF
THE TEAGLES.RUMORS FROM CLEVELAND AS
TO AN ESTRANGEMENT.

Date Had Been Set for Final Meeting of Husband and Wife, but Attempt at Suicide Intervened. America Club—Good Roads Meeting Tonight.

Passes of the Times, No. 25, Raymond Ave.

PASADENA, July 18.—Advises which have reached this city from Mr. O., relating to an alleged estrangement between Walter C. Teagle and his wife, who shot herself Wednesday, have caused much quiet rumor among his friends here. It is believed here that this trouble was approaching a crisis and nerves Mrs. Teagle to attempt to take her life.

As Mrs. Teagle left no note when she shot herself and has not regained consciousness for a minute since she was found by Miss Boies, her nurse, she has revealed no cause for her act; and deductions as to the reason for her deliberately shooting herself are most gratuitous.

It is believed that within a few months after her marriage to her husband she did not agree with her husband and often regretted having married when a girl scarce out of her teens. With her birth date unknown, she found a ready excuse for coming West and the rare visits of her husband here were occasion for remark.

Mr. Teagle had summoned his wife to Cleveland for a final meeting and to leave her on July 27, accompanied by her attorney. The date of this meeting is believed to have worked herself on her all-racked body and mind.

No information was ever given by Mrs. Teagle to her close friends here, that she was out with her husband. She always spoke of him in the highest terms and never in action or word betrayed the trouble that brewed in her heart. Her nature is that of the vivacious, gay, and gayety-loving person, and she was the life of any party that she mingled. Her home was the center of many gay social events and there was not an hour of the day but that she appeared outside of her home.

Miss Helen Boies, the nurse, says that Mrs. Teagle often had hours when she was despondent and at times would threaten to kill herself. Late last night Mrs. Teagle was in the same despondent condition that has characterized her case since the shooting. A light fever is noticeable at times, but physicians do not predict the outcome of the case.

SOLID IN NATIONAL POLITICS.

The Taft Republicans have reorganized the Americus Club for the Presidential campaign of 1908, and some of the Lincoln-Roosevelt men have joined. Horace M. Dobbins, president of the club, presided and Secretary of the Club, Frank C. Williams, presided over the organization. About fifty were present and these men pledged themselves to work for recruits during the next few weeks in order that the ranks of the club may number nearly 100 by the time the club makes its final appearance.

Many of the men who have been active with the club in past campaigns were present. Maj. James H. Campbell, who formerly commanded the club will be in charge again and will be assisted by company captains: L. D. Collins, Co. A; C. W. Hill, Co. B; G. May, Co. C; H. M. Dobbins, adjutant.

George H. Frost has granted the club free use of a large hall at No. 185 East Colorado street and weekly drills will be held there. The first meeting of the club will be held on Friday night.

Active members are required to furnish uniforms, which cost about \$2, and there are no dues.

BEGIN INVESTIGATION.

Investigation began yesterday afternoon of the trouble at the Villa-street fire department station in which C. T. Huddleston and W. T. Miller are involved. Last Sunday the two men came to blows over an argument that has caused trouble in the department for the past six months. The commission adjourned late yesterday afternoon and will announce their decision later.

TO TELL OF GOOD ROADS.

Efforts are being made to have a crowd out for the good roads meeting at Library Park, tonight. Backers of the bond issue will gather at the Board of Trade room at 7 o'clock and will march to Library Park, where the speaking will be heard. A band concert will be heard from 7:30 o'clock until 8:15, when the meeting will be called to order.

People will have an excellent opportunity to hear more of the details of the great project. Chairman C. D. Daggett of the Los Angeles County Highway Commission will tell how the commission has worked for months past to devise the best scheme for building the roads in the most traveled sections. Mayor Thomas Earley, chairman of the Executive Committee of the Good Roads Association, will speak of the problem as it appears to a city executive and a real estate dealer. C. A. Day will treat the subject from the viewpoint of a lawyer. S. A. Simons will speak on the project from the view of a lawyer. J. Howard Patton is to give a carpenter's view of the question. The speaker of the bank will be told by J. C. Constance of the Crown City Bank. Constance MacLachlan will also speak.

PASADENA PICNIC DAY.

A joint committee of the Board of Trade and Pasadena Merchants' Association went to Venice and Playa Del Ray yesterday to make arrangements for the Pasadena Picnic Day. They will not make an official report until next Tuesday night, when they will return from Balboa and other coast towns with propositions. On the committee are Frank V. Ryder, Dr. G. W. Phillips, Mr. W. H. Miller, President Edward T. Off from the Board of Trade, and Messrs. Harry Prins, D. G. Andrews, Richard Taylor and President H. G. Chaffee of the Merchants' Association.

LOWEST TAX RATES.

In spite of the fact that Mayor Waternous paid two employees of the City Hall a month out of his own pocket, Mayor Earley has raised the wages of nearly all employees and still shows a balance on hand of \$100,000 in the city treasury, nearly twice as much as was left over last year. For this reason it is believed that the tax rates may be cut down to at least 75 on State and county roads, which is, in many cases, lower than last year.

The exact rate of taxation cannot be determined until after the water bond election, for should the city purchase the plants, about \$5000 received from

the taxes on the water companies' property will not be received.

STANFORD MAN INJURED.

While bathing near the upper end of the Little Santa Anita Cañon Thursday afternoon, Mortimer Hall, a Stanford student, cut his right foot on a snag, and was so badly injured that he had to be brought down the mountain in a stretcher, carried on a pack mule, and discovered an inviting pool. He disrobed and stood in feet foremost, and as he struck the bottom his foot caught on a jagged piece of rock, which caused the man to fall into the instep. His cries roused his companions, and with great difficulty he was brought down the trail to a physician. He will recover the use of his foot, but will be lame for a time.

CELEBRATE BIRTHDAYS.

Mr. Fred Ross and Miss Irene Stimpson of Pasadena celebrated their birthdays on Mt. Wilson yesterday, which was followed by a dinner party in the evening. William R. Staats presented the two women with silver pieces in behalf of the guests.

SOCIETY NOTES.

Mrs. W. S. McCay of South Orange Grove avenue was the newest yesterday afternoon, at an informal tea given by the members of her club. Mrs. M. E. Minsell and Miss Benson of Grand Rapids, Mich. The reception room was beautifully decorated with quantities of sunbeams, started Patrick Burnam at the bath house today. The former marine of U.S.S. Dakota is nothing if not a ladies' man, but "orders is orders" to him.

"Excuse me," said he to the entrance form habited in the color of virginity, "but I'll have to ask you to put on some more clothes."

The young woman tossed her head, much in wonder than in anger. "I don't suppose you'd be so eccentric."

But since Pat, to hold his job, insisted on being eccentric, she went into the dressing room and donned a suit of blue. With the red that suffused her face and neck, she was now habited in the colors and Pat's sense of the proprieties was pleased while his patriotic feelings were also touched.

MACHINERY FOR DREDGER.

Two cars of heavy machinery to be used in the construction of the steel dredger arrived today at the Craig ship plant and ten cars of steel plates and truss work are on route from the home of North Raymond avenue, among whom were Misses C. M. Campbell, Mrs. St. John, Mrs. C. D. Dyer, J. B. Hibben, Frank Jones, J. G. Rosister, H. H. Harris, M. Rosenthal, Arturo Bandini, Speakman, Severy, Dr. Marcella, Gilmour, Misses Bannister, Mrs. St. John, Mrs. M. Rosenthal, and Webb. Mrs. Woodworth assisted in entertaining by Mrs. H. T. Staats.

COOPS IT UP.

The City Council took initial action today on a measure which will take from the Mira Mar and Belmont Heights territory its ocean frontage and leave it to the up inland. This will prevent it carrying out its originally projected of building a pleasure pier at the foot of Grand avenue, which runs through the territory which runs through to the ocean. This was done after listening to the protests of the interested suburbanites and assuming that the city was not antagonistic, but that there was no room for two towns and that Long Beach must protect its own interests.

Two petitions were presented to the Council this morning for annexation territory. One includes Carroll Park tract and the shoestring strip along the ocean front and the other proposes only for the shoestring strip.

The joint installation of officers of Camp No. 16, W.O.W., and Verbena Circle, No. 64, W.O.W., last evening attracted a large number of visitors, a special car to participate.

A. P. Griffith has let the contract for the erection of a new house on Citrus avenue.

C. C. Condit, local manager of the Merchant-Oak Lumber Company, purchased from W. W. D. for \$10,000 Orange Grove tract, for \$500.

C. J. Platt yesterday sold his five-acre ranch on Bonita avenue to E. M. Coffin. The latter's son, who arrived from Omaha this week, will occupy the house.

Coronado pleases the mothers.

Nothing over heat Human Roulette.

WILMINGTON.

WILMINGTON, July 17.—A raid was made last night at the Wilmington saloon, John Thompson, owner. Since his license was revoked by the City Trustee last month, Thomas has been defiant and has continued to sell liquor.

When the case came up yesterday afternoon, the chairman of the venue was asked by Thomas to appear. M. W. Goodrich, and will come up before Justice Stephens of Los Angeles. The defense is that the liquor ordinances are illegal because they were not properly issued by the president of the Board of Trustees, and were not properly printed and published.

The trustees are determined to make an end of the present liquor troubles, and have prepared a strong ordinance, which will be adopted at the next meeting.

The election will be held on the 22nd inst.

A Taft prosperity club was organized last night at an enthusiastic meeting. A. W. Edwards, a member of the club, was secured. Wm. B. Mathews, secretary; A. M. Mele, treasurer, and John Leonardo, chairman of the Entertainment Committee. The club will meet Thursday night for permanent organization.

The new City Hall and library has been completed.

SIERRA MADRE.

SIERRA MADRE, July 17.—Arrangements are being made by the Board of Trade for a basket picnic on the 22d inst. A train has been engaged from the Pacific Electric Railway to leave Baldwin avenue station at 8:30 a.m. and proceed to Alameda Beach. The train will be at the Sierra Madre Special and will be decorated with banners and bunting. The women who are assisting the members of the board are: Misses W. J. Lawless, I. W. Maguire, Mrs. Wright. The excursion committee is composed of W. W. Keyes, president, N. H. Hooser, G. B. Mortridge and Recorder J. A. Maden. Many are being booked for this trip from the mountains to the sea.

Fins Cafe at Coronado Tent City.

SAN DIMAS.

SAN DIMAS, July 17.—The San Dimas Lemon Association has commenced work on a large up-to-date packing house, west of Catastac avenue. It will be modern and complete, embracing the best ideas in storing and handling.

The building of Catastac avenue leading to the Southern Pacific Railroad depot has been completed, greatly reducing the heavy grade.

The work of cutting Central avenue, west of the Taylor ranch, is being vigorously continued. This is in progress, the plan agreed on for the disposition of storm water. The property owners have subscribed \$500 toward the assessment.

WON'T BE MISSED.

It was learned today that an ordinance presented to the Council by a local woman's club, prohibiting the smoking of cigarettes, was responsible for three Denver fames, who usually spent the summer in Los Angeles, because they feared it had been passed.

Eastern papers had so published, but the fact is that the ordinance was introduced, but never got beyond the first reading.

LONG BEACH NOTES.

Bank statements of the First Na-

tional, City National and Exchange banks, and the First National, all com-

bined resources of \$1,345,155.81, and de-

posits of nearly \$600,000.

Pacific Electric representatives ap-

peared before the board of equaliza-

tion today and examining their state-

ment, destined to make any protest,

through the increase over last year.

The company's franchises are as-

sumed at \$50,000.

Silk-draped Venus Arising from Long Beach Plunge Sets Guard Fluttering—Another Suburb is Copped up by Action of Council. Machinery for Dredger Arrives.

LONG BEACH, July 17.—A dainty vision in a white silk bathing suit, which Venus-like arose from the water of the plunge and was sought a very public place on the coast to enjoy a sunbath, started Patrick Burnam at the bath house today. The former marine of U.S.S. Dakota is nothing if not a ladies' man, but "orders is orders" to him.

W. J. Hamlin, secretary of the local Business Men's Association, has been elected secretary of the newly organized Pomona Humane Society. His office will be in the Board of Trade rooms.

The local Lincoln-Roosevelt Republicans held a meeting for organization at the Fraternal Aid Theater this evening and were addressed by Lee C. Gates and Marshall Stimson of Los Angeles.

A number of local residents interested in foreign missions are contributing and drying fruit at L. Ratty's Ranch south of town, to be sent to the missionaries in the name of the women.

W. Wright and family will leave for a long vacation at Catalina next week.

The new Palace Market of the San Antonio Meat Company will be open for public inspection tomorrow. It is now one of the largest in Southern California.

Miss Lillian Scott will leave on Tuesday for a trip to Chicago, St. Louis and Atlanta. Miss Helen Werner, Mrs. Harold C. Dewey will leave in a few days for a visit to the home of her parents, Mr. and Mrs. Robert Surtees of Ottawa, Kan.

MACHINERY FOR DREDGER.

Two cars of heavy machinery to be used in the construction of the steel dredger arrived today at the Craig ship plant and ten cars of steel plates and truss work are on route from the home of North Raymond avenue, among whom were Misses C. M. Campbell, Mrs. St. John, Mrs. C. D. Dyer, J. B. Hibben, Frank Jones, J. G. Rosister, H. H. Harris, M. Rosenthal, Arturo Bandini, Speakman, Severy, Dr. Marcella, Gilmour, Misses Bannister, Mrs. St. John, Mrs. M. Rosenthal, and Webb. Mrs. Woodworth assisted in entertaining by Mrs. H. T. Staats.

COOPS IT UP.

The City Council took initial action today on a measure which will take from the Mira Mar and Belmont Heights territory its ocean frontage and leave it to the up inland. This will prevent it carrying out its originally projected of building a pleasure pier at the foot of Grand avenue, which runs through the territory which runs through to the ocean. This was done after listening to the protests of the interested suburbanites and assuming that the city was not antagonistic, but that there was no room for two towns and that Long Beach must protect its own interests.

Two petitions were presented to the Council this morning for annexation territory. One includes Carroll Park tract and the shoestring strip along the ocean front and the other proposes only for the shoestring strip.

The joint installation of officers of Camp No. 16, W.O.W., and Verbena Circle, No. 64, W.O.W., last evening attracted a large number of visitors, a special car to participate.

A. P. Griffith has let the contract for

the erection of a new house on Citrus avenue.

C. C. Condit, local manager of the Merchant-Oak Lumber Company, purchased from W. W. D. for \$10,000 Orange Grove tract, for \$500.

C. J. Platt yesterday sold his five-acre ranch on Bonita avenue to E. M. Coffin. The latter's son, who arrived from Omaha this week, will occupy the house.

Coronado pleases the mothers.

Christian Endeavor.

HOLDING THE REINS ON LIFE.
Some Comments on the Christian Endeavor Movement—Christian Endeavor, Baptists, Young People, etc., growth of the movement—How to Promote Total Abstinence. *—See v. 25-26.*

By William T. Ellis.

The "burn" stage has been reached in temperance reform. So many and so conspicuous are the victories over the anti-liquor forces that every temperance meeting partakes of the nature of a jubilation celebration. Frankly, though, this is a time of peril to the reform; it is well just now, to bear in mind the admonition of Jesus: "If ye then abide in my word, all men shall speak well of you. There is plenty of evidence that politicians and papers are inclined to use the popular and prosperous temperance movement as a cloak for their own selfish schemes. Moderation and self-restraint however, as well as temperance reformers as just now.

The real strength of the temperance movement will never be found in the number and influence of its powerful allies, but rather in those deeply underlying principles which are further the spiritual law of Jesus. Ultimately, the reform rests upon individual total abstinence for the sake of society's well-being. Thus it is to be seen, that temperance is as essentially spiritual in its nature as any other development of Christianity.

Do as you please and you will not please yourself, or anybody else, except the author of selfishness. Self-indulgence of any sort is short-sighted and inimical to character's highest growth.

Whoever gets a clear understanding of the genius of Christianity is not likely to be guilty of practicing supporting intemperance. Christianity is spiritual; it is a belief of the heart, influencing the manner of life. It is said, "If ye then abide in my word, all men shall speak well of you. There is plenty of evidence that politicians and papers are inclined to use the popular and prosperous temperance movement as a cloak for their own selfish schemes. Moderation and self-restraint however, as well as temperance reformers as just now.

Every time we do the body for the soul's sake we ascend a step in the scale of meanness and godlessness.

A sharp line was drawn by the apostle between the unchristian world that surrounded the infant church, as water surrounds an island, and the spirit-controlled church itself. The world's way was to let passion run riot. Desires, said men, were made to be gratified; and we still hear echoes of that philosophy. In sharp contrast with this foulness were the humble, modest purity of the Christians. They had been taught by their Lord to deny themselves. To be a slave to appetites and passions is to deny one's self-sovereignty. And self-sovereignty is best manifested in the service of the Master of the spirit who has come to us in the place of him whom the little band of fishermen called "Master."

Every time we deny the body for the soul's sake we ascend a step in the scale of meanness and godlessness.

The enthusiasm of Paul was for the cross; so he pictured the friends of Christ as having crucified the flesh, that it might not corrupt the spirit again with their Lord to a frenzied life of spirituality. "Risen together with Christ" is his description of the life of those who have nailed their passions and lusts to the cross.

The way to get the mastery of low life is to deny the desire of the life to all that is high and pure and beautiful and good. In other words, the one sure remedy for all forms of intemperance is to yield control of the character to the strong spirit of God. And how can man know if he but the spirit of God? *—See v. 25-26.* In like manner the spirit he will bear the fruits thereof; no tree can escape bearing its own fruits. Paul enumerated the fruits of the spirit as Love, Joy, Peace, Long suffering, Kindness, Goodness, Faithfulness, Meekness, Self-control.

"The way to abolish the saloon," said the temperance speaker, "is for every man to close the liquor business that is carried on between his own chin and nose."

Total abstinence on the part of the individual is the only rock foundation for prohibition in the State.

Any habit, no matter how good, which cannot easily be broken militates against the sovereignty of the spirit.

Every moderate drinker could abstain from getting up if he would; every inebriate would if he could. *—See v. 25-26.*

Anything that is proper to do is proper to promise to do. Signing a total abstinence pledge is as many and shivarees (if faithfully kept) as is total abstinence itself.

Drinking water neither makes a man sick nor in debt, nor his wife a widow. *—See v. 25-26.*

CHURCH SERVICES.
SUNDAY, JULY 13.

FIRST BAPTIST CHURCH—The PASTOR, Dr. J. Q. A. Henry, will preach tomorrow morning at 10 a.m. *—See v. 25-26.*
